

Our energy has a new signature

To all our esteemed Customers, Stakeholders, Business Partners, and Associates,

Inox Green Energy Services Limited, a proud subsidiary of Inox Wind Limited and part of the INOXGFL Group, has been at the forefront of India's renewable energy journey. Since our incorporation in 2012, we've grown from providing wind infrastructure services to becoming a trusted name in clean energy solutions.

Today, we are excited to unveil our new logo – a mark that reflects who we are and where we're headed. It's a fresh visual identity, built on the same strong foundation: reliable service, sustainable growth, and forward-thinking energy solutions.

Sustainable

Reliable

Limitless

Growth

Innovation

Wordmark INOX in bold portrays brand personality as reliable and robust. Angular incline illustrates our commitment to fast paced growth

The green and light green vignette symbolises sustainability, energy, renewal, hope and nature

The two arrows moving in the right direction symbolize fast forward. Coming together at 'x' that stands for united collaboration and growth.

A unified brand identity for a Sustainable Future.

We're committed to creating lasting value for everyone who walks this journey with us through better offerings, broader reach, and deeply sustainable practices. Thank you for your continued trust. We look forward to building the future together.
